DANIELA ALEJANDRA SANLUIS CASTILLO

Software Developer | B.S. in Computer Science

Mexico City, Mexico • danielasanluisc@ciencias.unam.mx • GitHub: DanielaSanluis • LinkedIn: Daniela Sanluis

PROFESSIONAL SUMMARY

Senior undergraduate student pursuing a B.S. in Computer Science at the National Autonomous University of Mexico (UNAM, School of Sciences). Software developer with a strong background in algorithms, web and mobile architecture, full-stack development, and data mining. Hands-on experience designing and building software solutions with Python, Java, React, React Native, PostgreSQL, and Docker in Linux (Fedora) environments.

EDUCATION

National Autonomous University of Mexico (UNAM) — School of Sciences Mexico City, Mexico
B.S. in Computer Science *2022 – Present (Final Semester)*

- Coursework and focus in computer science fundamentals, software engineering, data mining, client-server architecture, and relational databases.

Colegio de Ciencias y Humanidades (CCH) — Naucalpan Campus, UNAM Naucalpan, State of Mexico
High School Diploma *2020 – 2023*

FEATURED PROJECTS

ClinicaMente — Psychology Mobile Application React Native, Expo, TypeScript, Java, PostgreSQL

- Designed and built an interactive mobile frontend using Expo Router for scheduling and managing psychological appointments.
- Implemented specialist category browsing, patient review workflows, and consultation history tracking.
- Integrated backend REST services with persistent data storage in PostgreSQL.

Data Mining & Clustering Analysis — Public Health in Mexico Python, Pandas, Quarto, Jupyter Notebook, Linux Fedora

- Processed and performed exploratory data analysis on large-scale national epidemiological and public health datasets.
- Executed data cleaning, filtering, and outlier detection using statistical methods such as Interquartile Range (IQR).
- Built analytical segmentation models using clustering algorithms and published interactive reports with Quarto Markdown.

Web Platform — Internet Development Technologies Django, PostgreSQL, Docker, React

- Developed and integrated client-server web architectures following modern web standards and containerized reproducible environments with Docker.

EXPERIENCE

Software Development & Freelance Projects Mexico City, Mexico
Independent Software Developer *2023 – Present*

- Designed and implemented custom software systems, web applications, and mobile apps for academic initiatives and independent clients.

Client Service & Operations Management (Self-Employed) Mexico City, Mexico
Operations & Client Relations *2023 – Present (3 years of experience)*

- Managed scheduling, direct client consultations, and service quoting in aesthetics and cosmetology, strengthening self-management, problem-solving under pressure, and effective communication skills.

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL, JavaScript, C++
- **Frameworks & Libraries:** React, React Native, Expo, Django, Quarto
- **Databases & Tools:** PostgreSQL, Docker, Git/GitHub, Jupyter Notebook, Overleaf / LaTeX
- **Operating Systems:** Linux (Fedora), Windows
